

Program Administrator Execution Manual

A Step-by-Step Operations & Monitoring Guide for Cohort Administrators

Step 1: Add Cohort Participants (Mentors & Mentees)

- **1. Navigate to Dashboard:** Log in as Admin and open the Admin Dashboard (/dashboard).
- **2. Bulk Import via Excel:** Under Candidate Management, click 'Import via Excel', download the structured template, paste participant records (Name, Employee ID, Email, Department, Role), and upload.
- **3. Single Candidate Entry:** Alternatively, click 'Add Single Candidate' to register individuals on the fly.
- **4. Broadcast Onboarding Links:** Click 'Broadcast Onboarding Links' to notify candidates to complete their DISC behavioral quiz and competency profile at /onboarding.

■ **Note:** Candidates must complete their onboarding profile so the AI matching engine can compute accurate DISC compatibility and competency growth ratings.

Step 2: Generate or Customize Pairings

- **1. Run Matching Algorithm:** Click '■ Run AI Matching Algorithm'. The system calculates multi-dimensional compatibility (35% DISC Style, 25% Department Synergy, 40% Competency Cascade).
- **2. Review Proposed Pairings:** Inspect the generated pairing matrix and compatibility percentages on your dashboard.
- **3. 1-Click Fast Pairing:** For unpaired mentees, choose a mentor directly from the inline dropdown in the 'Mentor' table column and click '■ Pair'.
- **4. Custom Override / Manual Pairing:** Click 'Create / Edit Pair' to manually pair any mentor with a mentee and preview their real-time match score.
- **5. Reject / Reassign:** Click 'Reject' on any proposed pair to reassign candidates.

Step 3: Confirm & Activate the Cohort

- **1. Finalize Pairings:** Verify that all target mentees are matched with suitable mentors.
- **2. Click 'Confirm All Pairings':** Click the confirmation button to activate the cohort relationships.
- **3. Automated Initialization:** The system immediately transitions pairings to ACTIVE status and automatically initializes all 13 weekly sessions (Week 0 Kick-off through Week 12 Close-out).
- **4. Participant Workspace Access:** Mentors and mentees can now enter their dedicated 12-Week Mentoring Space (/space/[pairId]).

Step 4: Ongoing Weekly Operations & Monitoring

- **1. Session Roadmap Tracking:** Monitor overall cohort progress (e.g. '4 / 13 Sessions Completed') directly on the Admin Dashboard overview cards.
- **2. Multi-Mentee Support:** Ensure mentors with multiple mentees (e.g. Shalini with Rohit & Sneha) are toggling their active mentee tabs and scheduling sessions with both.
- **3. Meeting Scheduling & Video Room:** Participants schedule 1:1 sessions using the integrated calendar picker, 1-click live video room (WebRTC), and Google Calendar sync.
- **4. Action Items & Commitments:** Track open tasks and mutual commitments logged by mentors and mentees across weekly calls.
- **5. Resource Hub (/resources):** Curate and approve coaching frameworks (GROW Model, SARTAJ Safety, DISC dynamics, TPM standards) in the central repository.

Step 5: Cohort Milestones & Program Close-out

- **1. Week 6 Mid-Point Pulse Check:** Mentors and mentees submit their mid-term growth survey. Review ratings and sentiment under Cohort Survey Telemetry.
- **2. Week 12 Final Evaluation:** Pairs complete their close-out reflection and goal achievement review.
- **3. Export Official PDF Summary:** Click 'Export PDF Summary' in any mentoring space to generate the official executive PDF document for HR/L&D; records.
- **4. Archive / Export Cohort Data:** Click 'Export Pairs (Excel/CSV)' from the Admin Dashboard for leadership reporting.

Quick Admin Action Cheat Sheet

Task / Goal	Location in App	Specific Action Required
Add Cohort Candidates	Dashboard → Candidate Mgmt	Click 'Import via Excel' or 'Add Candidate'
Fast-Pair Unpaired Mentee	Dashboard → Pairing Table	Pick mentor from inline dropdown → click '■ Pair'
Custom Manual Pairing	Dashboard → Pairing Actions	Click 'Create / Edit Pair' → choose pairing → Save
Activate All Pairings	Dashboard → Pairing Table	Click 'Confirm All Pairings' to launch 13 weeks
Switch Testing Role	Top Navigation Bar	Use Role Dropdown to switch Admin / Mentor / Mentee
Inspect 12-Week Space	Dashboard → Active Pairs	Click 'Enter Space' on any active pairing row
Download Final Reports	Mentoring Space → Header	Click 'Export PDF Summary' for printable summary
